FINANCIAL AND COMMERCIAL.

TUESDAY, April 12-6 P. M.

We have nothing new to report in the stock mar-ket. To say that transactions were limited and that Hudson River Rai road, #; Panama Railroad, 4. At the second boars Morris Canal declined 4; Nicaragua, }; Cumberland Coal, }; Parker Coal, 1/; Florence and Keyport, ‡; Hudson River Railroad, ‡; Reading Railroad, ‡; Harlem Railroad, ‡. Norwich and Worcester advanced 1 per cent. Holders are anxious to get rid of the large lots of stock on hand, but they can find no outside customers. There is no demand out of the street, and very little in, so that it prevent a very serious depreciation, unless something turns up to give greater activity to the market and distribute the fancies more equally among speculators. It is a matter of some astontained. There is hardly a fancy stock on the list worth what it is selling at, and nothing in the world but the ease with which large lots are carried, prevents the market from being fairly flooded with them. As it is, the quantity offering is largely in excess of the demand. The spring rise, which holders usually so anxiously look for, has been realized, and we are rapidly approaching the dulness and depression of summer. The prospect is de cidedly in favor of the bears, and sellers throughout the list will, without doubt, reap a rich harvest. The most unfortunate class of speculators, at the present moment, are those who hold large lots of coal stocks, particularly Cumberland and Phoenix. The receipts at the office of the Assistant Treasurer

of this port to-day, amounted to \$122,248 77; payments, \$22,716 11—balance, \$6,898,478 02.

The earnings of the Macon and Western Railroad Company, for March, amounted to \$26,592 71, against \$26,402 77 for the same month in 1852, showing an increase of \$189 94 in the month this

The returns of twenty-four banks of this city, for February, 1853, compared with those for December, 1862, show an increase in the line of discounts of \$2,960,976; specie, \$256.667; and a decrease in deposits of \$1,125,114; in circulation, \$644,362.

The Whaling Insurance Company of New Bedford have declared a dividend of ten per cent. The Springfield Fire and Marine Insurance Company have declared a semi-annual dividend of four and a half per cent.

The agent of a large number of stockholders in the United States Bank, writes from Amsterdam, that he has found it impossible to accomplish any satisfactory arrangement with the representatives of the stockholders in Paris and Holland, to bring the affairs of the institution to a favorable issue. vanced lately very rapidly, but the transactions have been limited. We are disposed to believe that the improvement is not altogether bona fide. The views of the holders may keep so far ahead of purchasers as to prevent real transactions, and those made may be solely for the purpose of creating a market. An advance in prices, in the face of an active demand, has a substantial basis; but such is not the case at pre. sent in mining stocks generally. We have no desire to see an inflation in mining stocks to an extent that will produce much speculation or much excitement in the public mind; for the reaction would prove decidedly injurious to the real mining interest of the country, and its progress much retarded. We are anxious that the mines should be fully developed as rapidly as possible, and their resources thoroughly anderstood by those who purchase them for temporary or permanent investments. At the present moment, not more than half a dozen companies, out of the many presented, have been sufficiently worked to give any guaranty of profits, to even a moderate extent ; and our advice to capitalists and others is to be cautious and in no haste. Those who originate companies get stock at prices low enough to justify great risks; but it would be better for outsiders to invest in such concerns as have been proved, and not found wanting in the raw material, than to take hold of doubtful companies, at prices three, four and five hundred per cent above what is called scheme rates. It must be borne in mind that the copper mines of Lake Superior are most expensively worked; that an enormous outlay of capital, for machinery, is required, and much time expended in their developem and that even with this, the result is not always satisfactory. We have copper mines in our immediste vicinity that will prove much more productive and profitable than those of Lake Superior. The North Carolina Copper Company has, thus far, exceeded even the far famed Cliff Mine of Lake Superior. It has sold in this market, within the past two months, four hundred tons of copper ore, and it is estimated that about three hundred tons per month will hereafter be marketed. The Potomac Copper Company, of Virginia, will soon have its ore in the market. It is similar to the North Carolina. The Dollyhide copper mine, near Liberty, Frederick county, Maryland, is said to be yielding largely. Of the fifteen fathoms already excavated, the average value at the lowest figure, is from \$150 to \$200 per fathom. At present, the vein is so exceedingly rich as to yield from \$300 to \$400 per fathom. This goes far ahead of anything in the Lake Superior copper region. The Carroll Copper Company of Maryland is working the same vein as the Dollyhide, with similar results. It is our impression that the copper mines in this section of the country, in States bordering on the Atlantic, will not only pay much better than those of Lake Superior, but they will be productive at a much earlier period. As temporary or permanent investments, they are, therefore, much

CITY TRADE REPORT.

TURDAY, April 12—6 P. M.

ASHES were in moderate request at steady prices. The sales reached 50 bbls. at \$5.504, a \$5.025, for pearls, and \$5 for pots, per 100 lbs.

BIKLASTUPES — Flour was dull and lower; the demand was moderate for home use, but limited for shipment, at easier prices, sales have been made of 11,500 bbls.—sour at \$4, superfine No. 2 at \$4 12½ a \$4 25, ordinary to choice State at \$4 56½ a \$4 75, mixed to straight Indiana and Michigan at \$4 62½ a \$4 75, common to good Ohio at \$4 68½ a \$4 81½, fancy Indiana and Michigan at \$4 75 a \$4 87½, fancy Indiana and Michigan at \$4 75 a 48 87 %, fancy Genesee and Ohio at \$5 a \$5 25, extra Indiana, Michigan, and Ohio at \$5 25 a \$5 75, and extra Genesee at \$5 12½ a \$5 per bbl; Canadian atwacted more attention; some 1,000 bbls. superfine, in bond, were taken at \$4 87½ a \$5 12½ for mixed to good, \$5 12½ a \$5 60 for favorite, and \$5 50 a \$5 50 for fancy, per bbl. No sales were effected of rye flour or cornmeal, which were unchanged in value. Wheat was in steady request at \$114 a \$1 15 for red Western, \$1 22 for white do., and \$1 25 for do. Genesee, per bushel, but factors asked more and thus obstructed business. Rye favored owners; there have been 3,000 bushels purchased at 90½ per bushel.

Barley and oats remained as last represented. Corn did not vary much; the arrivals and inquiries were numerous and large, and prices ruled firm; we heard that 40,000 bushels were disposed of at 60 a 66c. for inferior to choice Southern white and yellow, per bushel.

Corron—The sales were 900 bales to day, but without any improvement in psicas, which seems as before.
